RALLY!

Colonel PRESTON will speak at the Court House, to-morrow (Thursday) night, at early light. Let the friends of civil and religious liberty attend. This is the first speech of the canvass in the city on the right side, and will be an excellent one. Do not fail to hear it.

Should any carrier fail to deliver the Democrat promptly, word let at the office will remedy the neglect.

Enlistments for the British army are progressing rapidly in Canada.

Officers Weatherford and Cross were the persons who arrested the fellows up town, engaged in the fight on Monday.

Christy's Minstrels continue their performances in Cincinnati, and attract crowded houses nightly.

A TREE SAYING.—The New York Evening Post says, "The Navy is a good place for bad boys, and a bad place for good ones."

Upon the first page of to-day's paper, will be found several communications of interest, together with local and news items.

Henry A. Wise writes to the "Granite Club" of Boston, as follows:—"Be steady, be firm, Organize and be vigilant, we shall yet see the country safe."

Mr. B. Stout continues the commission, receiving and forwarding business at the old stand of Stout & Adams, Third street, between Main and the river.

Some rowdy, and drunk, of course, took to the streets yesterday afternoon, to throw stones at a man who had been shot at by a police officer.

SWALLOW.—It is estimated that one of these birds will destroy, at a low calculation, 900 insects a day. This would seem incredible, if we were not aware that this whole world is swarming with them.

ANOTHER FAILURE.—The Trustees of the University and Public Schools, tried another meeting last night; but didn't get a quorum. Hadn't people better inquire after the health of the trustees?

FRANKS.—To Adams Express Company, (last line) for Cincinnati papers of yesterday, in advance of the mail. These Express Companies are great conveniences, certainly. After we received them, the mail passed our door, on its way to the office.

Mr. H. M. Broden, corner of Sixth and Chestnut, has a very complete drug store, where prescriptions are, carefully compounded, and where a full assortment of goods, pertaining to that line of business, may be obtained at regular city prices.

WHEN?—That will depend, at the corner of Market and Walnut streets, be drained and filled up? More complaints come in of the fitness and offensiveness of that locality. Dead dogs are thrown into it, without let or hindrance. When will the authorities attend to this matter?

A contemporary, in speaking of the recent glorious Democratic victory in Virginia, says Sam's funeral sermon is to be preached from the following text:

"For we are but yesterday, and know nothing, because our days upon earth are a shadow."—Job, c. vi, v. 9.

GRAND HALL.—There was a large audience in the hall last night, in spite of the hot weather. A little oratory, some of whom are but as babes, sang delightfully, and charmed the audience, the performances of the amateurs were as we expected they would be, of the first character. We are glad that our citizens exhibited their liberalities in so good a cause.

A few days ago, an old gentleman from Georgia, applied at the Court in Philadelphia, for papers for four slaves, father, mother, and son.

We send it to subscribers in and out of the city, the lowest newspaper rates. Examine its contents, and if you want it, send your name and address.

A notice of the difficulty between Erskine and Samuel Gross appeared in the Democrat of yesterday, which improperly reflected upon our conduct of our business. We have no quarrel with a true statement of the cause, which led to the frames, and are satisfied that the combatants were parted much too soon. Mr. Joyce, in our opinion, was fully justified in thrashing his adversary, at least, twice as much as he gave him, if fighting be justified at all.

We take pleasure in recording such noble acts of generosity as exhibited in the following:

HALL OF THE DEMOCRATS, June 19, 1855.

At the last meeting of the Board of Trustees of the First Department, I was instructed to return the thanks of the Board to Messrs. C. I. & A. V. Dupont, for the very liberal donation of \$100, to the Charitable Fund of the Department.

GEO. E. GREENE, Secretary.

THE DRAMATIC ASSOCIATION.—On Monday night the Dramatic Association of this city, presented the well known and favorite play of the Honeymoon. The unfavorable weather prevented many persons from attending, but the audience was large, and the representation a decided hit.

The young gentlemen acquitted themselves with much credit. Juliana, however, was of the feature of the play. The lady who represented that character, displayed rare histrionic ability, and that with her great personal beauty, attracted the attention and applause of the audience. The other female characters were well presented.

We hope the Association will soon again give us a taste of their quality.

The following is an extract from a business letter from Greenacres, Ind., under the date of the 16th inst: "At this distance the prospect in Kentucky is cheering. It looks much like she means to initiate the noble example set her by Virginia. Such a result is due from Kentucky to the Democratic party of Indiana, who for so many years, through good and evil report has stood by her constitutional rights, which she has, as a general thing, maintained over our success, and rejected our defeat. In coming Presidential contest, Indiana may safely be relied upon by the Democratic party of the Union. Our organization is going forward rapidly and will be thorough.

In haste, &c.,

BLACKWELL'S SASSAPARILLA AND VERDICOLO.—We notice that our neighbor, Vaughan, continues to send off, by railroad, express and steamboats, large quantities of his foreign remedy. We notice, almost daily, shipments upon the boats. The Sarsaparilla and Verdicoles is a most powerful and searching agent in removing all chronic complaints from the human system. The numerous certificates gratuitously furnished, show the success it has met with, not only in our midst, but elsewhere.

A brother of Horace Greeley was lately "killed" by a couple of stragglers, at Niagara Falls, and swindled out of \$175 by the patent law game. Horace ought to send the Daily Tribune agents to that young—Cin. Times.

RIVER AND WEATHER.

There were even eight feet water in the canal by the mark last evening, at 5 o'clock, and falling very slowly. The weather yesterday was hot, but the heat was moderated on the street by a cool breeze that prevailed most of the day. In the afternoon, a few drops of rain fell, but not more than enough to lay the dust.

PITTSBURGH, June 19.—M.

We call the attention of river men to the communication on our outside page this morning, in reference to obstructions at the head of the canal. It is written in temperate style, and we think will meet the views of all interested in an untrammelled trade.

Mason will go pilot. Arrive the boat a good show. As will also pilot. Arrive the boat a good show. As will also pilot.

[From the Evening Edition.]

THE RIVER.—A boat on its way from about a week. We were informed that one of our coal men on a steamer dispatched stating that there were eleven feet water at Pittsburg. Kentucky river was running out pretty strong as the Steamer came last night.
